Flight Breakfast another success

Although the weather started out questionable, by 8:00 a.m. the sun came out, the airplanes started flying in and the cars full of families pulled into the airport for breakfast. Again, the volunteers worked hard and put on a delicious breakfast.

Monticello airport instructor, Tim Wieneke gives a ride to nine year old Keaton Oberbreckling of Onslow Iowa his first ride in an airplane.

Alex and Tyler Stine take their Uncle Boyd out for breakfast. The Stines are from Mechanicsville and Lisbon.

Plane Talk on the Ramp

Hot job but someone has to do it.

Volunteers takes a break before crowd comes.

Pilot Thoughts

There are Rules and there are Laws. The Rules are made by men who think that they know better how to fly your airplane than you. Laws (of Physics) were made by the Great One. You can, and sometimes should, suspend the Rules, but you can never suspend the Laws.

About Rules:

- a. The rules are a good place to hide if you don't have a better idea and the talent to execute it.
 - b. If you deviate from a rule, it must be a flawless performance. (e.g., if you fly under a bridge, don't hit the bridge.)
